

Truma AquaGo

Instant, Consistent Hot Water.

Enjoy instant, endless hot water with Truma AquaGo: the industry's first hybrid on-demand water heater. This revolutionary water heater brings the luxury of hot water reliably around the clock for showering, hand washing, and dishes. Its compact dimensions make it a great choice for motorhomes, travel trailers, and campers of any size. Truma AquaGo is available in two models: comfort and comfort plus.

Unique Features:

- Industry-first temperature stabilizing technology
- Microprocessor-controlled stepless burner management between 20,000 and 60,000 BTU
- Simple maintenance with "Easy Drain Lever"
- Reusable filter cartridge to protect internal components

Exclusive Decalcification Technology:

Truma AquaGo is the only RV water heater that offers a semi-automated decalcification process. Just insert Truma decalcification tablets directly into the water inlet filter and put the AquaGo in "Clean" mode to remove mineral deposits left behind by hard water. This annual maintenance will maintain the performance quality and extend the life of the Truma AquaGo.

"Simply Better" is...

- Instant hot water at every tap
- Consistent temperatures to prevent scalding
- Recirculating design for endless supply

Manage Your Climate*

Truma Interconnect capabilities allow you to enjoy a unified and efficient comfort experience. Your Truma heating, cooling, and hot water systems can all be controlled using the Truma CP plus control panel. This allows you to set the temperature for your RV just like you do on your home thermostat.

Update Your Existing Water Heater Now

Truma AquaGo comfort is available for retrofit installation. Contact Truma's Customer Care team at service@trumacorp.com or 1-855-558-7862, ext. 1 to schedule installation.

*Truma CP plus control panel is not included in standard installation. Contact customer service for more information.
